

# Extra Income Ideas List

A practical menu of side-income options, organized by speed, skill, and effort. Pick 1-2 ideas, set a 7-day target, and execute. (Not financial or tax advice.)

## 7-day quick start

- 1) Choose one “fast cash” idea + one “repeatable” idea.
- 2) Set a target: **\$100** (easy), **\$300** (solid), or **\$500** (stretch).
- 3) Block 2 time windows this week (ex: Tue 6-8pm, Sat 9am-12pm).
- 4) Track earnings + costs (gas, fees, supplies).
- 5) Reinvest the first \$25-\$50 into tools that save time or increase rates.

## Pick your path

If you need money...	Best starting options	Notes
Today / this week	Sell unused items, odd jobs, delivery, gig shifts, yard work	Focus on speed. Avoid high-fee loans and “quick money” schemes.
This month (repeatable)	Pet sitting, house cleaning, tutoring, freelancing, no-fee/basis work	Build a simple workflow + repeat customers.
Long-term (bigger upside)	Skilled trade services, consulting, content + digital products, small business	Requires consistency and become a business.

## Fast cash ideas (0–7 days)

These are about speed. Aim for one-time cash, then transition to something repeatable.

- **Sell unused items** (Facebook Marketplace, OfferUp, local buy/sell): phones, tools, furniture, kids gear. Clean, take 6 good photos, price to move.
- **Odd jobs**: yard cleanup, hauling, moving help, junk runs, assembling furniture. Post a simple “\$X per hour, minimum 2 hours” offer.
- **Gig shifts**: delivery, rideshare, grocery shopping, package delivery. Track gas + miles and avoid low-paying orders.
- **Donate plasma** (if eligible): can be fast, but not for everyone. Read requirements, hydrate, plan recovery time.
- **Event work**: setup/tear-down, catering, security support, cleaning crews (weekends).
- **Temp/day labor**: short-term warehouse or labor shifts through reputable local agencies.

## Repeatable side-income (weekly/monthly)

- **House cleaning**: one deep clean can lead to monthly clients. Offer a flat rate for 1 bed/1 bath, 2 bed/2 bath, etc.
- **Pet sitting / dog walking**: recurring clients + predictable schedule. Create a simple intake form and safety rules.
- **Handyman basics**: small fixes, hanging TVs, changing light fixtures (only if qualified), weather stripping, furniture assembly.
- **Lawn care**: mow/edge/cleanup packages. Add-on: seasonal leaf removal.
- **Childcare / after-school pickup** (if licensed/approved): reliable route-based income.

- **Meal prep / home baking:** only where legal; check local cottage food rules. Start with a preorder model.

## Skills-based & online options (higher upside)

These pay more when you package a clear service: who it's for, what they get, how long it takes, and the price.

- **Tutoring / coaching:** math, reading, test prep, fitness basics, budgeting. Start with 3-session bundles.
- **Freelance services:** admin help, bookkeeping basics, Canva design, social media scheduling, resume reviews.
- **Voiceover / simple video editing:** short clips, captions, intros/outros. Charge per deliverable + revisions limit.
- **Notary / document runner:** requires licensing; can be strong income in high-volume areas.
- **Digital products:** templates (budget, invoice, planners), checklists, mini-workbooks. Sell on Gumroad/Etsy.
- **Affiliate + content:** only if you can post consistently (2-3 times/week). Focus on one niche.

## Snowflake ideas (tiny wins that add up)

- **Cash-back + rewards cleanup:** collect unclaimed cash-back, redeem points responsibly, and apply to debt.
- **Cancel/renege:** insurance quotes, phone plan downgrade, unused subscriptions (turn savings into payoff).
- **Return unused purchases:** check closets/garage for return windows; turn clutter into cash.
- **Found money:** gift cards, refunds, rebates, class-action settlements (legit sources only).
- **Weekly “no-spend swap”:** replace one paid activity with a free one and move the difference to your goal.

## Protect yourself: scams, safety, and taxes (quick checklist)

- **Never pay upfront** for a job or “training kit” that promises guaranteed income.
- **Watch for fake checks:** if someone overpays and asks you to send money back, it's almost always fraud.
- **Meet safely** for item sales: public places, daytime, bring a friend, cash or secure payment methods.
- **Track costs:** fees, supplies, mileage, and time. Profit = what's left after costs.
- **Taxes:** side income may be taxable. Save a portion (common rule of thumb: 15%–30% depending on situation).
- **Insurance:** if you drive for gigs or do work in homes, check if you need additional coverage.

## Mini worksheet: choose your next 2 moves

This week I will do:	When (date/time):	Expected \$:	What I need (tools/supplies):
Fast cash idea #1			
Repeatable idea #2
